

AWRA 2021 VIRTUAL SUMMER CONFERENCE: CONNECTING LAND & WATER FOR HEALTHY COMMUNITIES

This specialty conference will bring together practitioners and researchers across the intersecting areas of water management, land planning, natural resources policy, and related technical and design professions. Sessions will be multi-disciplinary and focus on:

- land and water aspects of water supply,
- water demand management,
- stormwater management,
- wastewater treatment,
- community planning and design,
- conservation, and
- integrated “one water” approaches.

With a focus on the relationships among water resources management, utility operations, and land use planning and design, attendees will come away with an understanding and strengthened personal networking connections across the disciplines and professions critical to water and community sustainability.

**JULY 19-21, 2021
VIRTUAL**
