

WATER TREATMENT SUPERVISOR

(\$4,755-\$6,069/mo. with excellent benefits)

Coos Bay-North Bend Water Board is located on the Southern Oregon Coast where recreational opportunities and beautiful scenery abound, providing a quality living and working environment.

This position leads the Water Treatment Section under the general supervision of the Operations Director. It exercises full supervision of employees in the Water Treatment Section, manages the operations and maintenance of a 12 MGD surface supply conventional treatment plant; manages watershed and wellfield water quality through development and implementation of source water protection/wellhead protection plans; manages operation of utility's water quality laboratory for quality control and compliance analysis; assumes fiscal responsibility by participating in the preparation of and operating within an approved annual budget.

MINIMUM EXPERIENCE AND EDUCATION REQUIRED: Five years progressively responsible experience in water treatment plant operation and maintenance, graduation from a senior high school or GED and an Associate degree from an accredited college or university in chemistry, biology, environmental studies or related field.

SPECIAL REQUIREMENT/LICENSES: Must possess a valid driver's license and acceptable driving record; ability to secure State of Oregon Grade III Water Treatment Plant Operator Certificate with filtration endorsement within 6 months of hire; experience and education suitable to qualify under Oregon Health Authority rules as Technical Director of the Water Board's state certified microbiological laboratory.

DESIRABLE QUALIFICATIONS: Bachelor degree in chemistry, biology, environmental studies or related field; Oregon Grade III Treatment Plant Operator Certification at time of hire; experience with computerized maintenance management programs and Microsoft application software.

Application form and full job description are available from Coos Bay-North Bend Water Board, Attn: Karen Parker, P. O. Box 539, Coos Bay, Oregon 97420, or by calling (541)267-3128, by faxing (541)269-5370, or e-mail karen_parker@cbnbh2o.com.

This position is open until filled.

A preference will be given to qualified veterans who apply for this position pursuant to ORS 408.225 to 408.237. Any veteran who has special qualifications and/or transferable skills in the management and operation of a water treatment plant should reference those skills and qualifications in their application. Coos Bay-North Bend Water Board is an EOE.
