GEM Seminar – Winter 2019
Michael E. Campana – WLKN 246
aquadoc@oregonstate.edu; 541-737-2413
Mailbox: CEOAS Admin. Bldg. 104
Burt Hall 193, 3 – 4 PM Friday
Schedule and Presentations (if available) will be posted:
https://tinyurl.com/GEMSEM2019

Requirements
(all must be met to get credit)

1) Attendance
Students should attend each presentation. However, starting 18 January, two absences are allowable; more than two means that credit will not be received. There will be a sign-in notebook at each session and each student must sign his or her name at the start of class. Once class begins it’s too late to sign.

2) Assignments (Word-processed, 12 or 13 point font, single sheet, and submitted as hard copies. Put your name, date, and class on each assignment).
Personal Statement (required of each student)
Write (approximately one single-spaced page) a statement describing your academic interests, what you would like to be doing (work and play) in 2035, and what you think the world will ‘look like’ in that year. Due: 25 January.

Presentation Summaries
Summarize the content, describe what you learned (e.g., takeaways) – especially as it relates to your field of study/interests. Be sure to list the title and presenter; c. one single-spaced page. Due: two weeks after presentation; 8 and 15 March summaries due 22 March via email.

GEOG 407: 4 summaries    GEOG 507: 5    GEOG 607: 6
