

## Research Positions Announcement

We are seeking outstanding candidates for **1 post-docs** in the area of water research and ecological restoration. The successful candidates will be working as core members in Prof. Junguo Liu's team at the Southern University of Science and Technology of China (SUSTech). Specially, the candidate will assist Prof. Liu to prepare the 6<sup>th</sup> Assessment Report of IPCC (WGII, Chapter "Water"), and work on ongoing projects including the ISI-MIP project on water.

### **Applicants should meet the following criteria:**

- (1) A Ph.D. degree awarded in hydrology and water resources, ecology, environmental science, remote sensing, computer science, economy or relevant fields
- (2) A proven track record of high-quality scientific publications
- (3) Promising potential as an independent researcher
- (4) Excellent communication and writing skills in English

### **SUSTC offers a generous salary and benefit packages, including:**

- (1)** An annual salary of no less than **220,000 RMB (>34,600 US\$/yr)**
- (2) Excellent candidates can apply for Shenzhen subsidy with a total of **>1.6 million RMB (~252,000 US\$)** in 5 years;
- (3) Upon completion of the position, those who have performed exceptionally will be encouraged to apply for tenure-track faculty positions at SUSTech.

### **Interesting candidates please contact**

Prof. Junguo Liu; Email: [liujg@sustc.edu.cn](mailto:liujg@sustc.edu.cn)

**Please read below for more information about Prof. Junguo Liu and SUSTech.**

**Dr. Junguo Liu** is a professor at the Southern University of Science and Technology of China (SUSTech). His main research interests include hydrology and water resources, ecosystem services and management, coupled ecological and social systems, and water-food-energy nexus. Prof. Liu is author of about 130 papers, including articles in *Science*, *Nature*, *Nature Climate Change*, *Nature Sustainability*, *Nature Communications*, and *PNAS*. He serves as an editor of the *Journal of Water and Climate Change*. He is a Lead Author of IPCC Assessment Report, and one target leader of the *Decade Program 2013-2022* of the *International Association of Hydrologic Sciences* (IAHS). He is also the president of the *Society for Ecological Restoration in Beijing*, and the Chair of the *Union of Societies for Ecological Restoration and Environmental Protection of Beijing*. He has research experience in China, Austria, the Netherlands, Switzerland, Germany, the U.K., and the U.S., among others. More information about Prof. Junguo Liu please refer to [http://www.sustc.edu.cn/en/faculty\\_finder/f/Liu\\_Junguo](http://www.sustc.edu.cn/en/faculty_finder/f/Liu_Junguo)

**SUSTech** was founded in 2011 in the southern city of Shenzhen, the epicenter of China's economic miracle and ingenuity over the past 35 years. Situated on a tranquil and picturesque campus of rolling hills and wandering creeks, SUSTech is widely known as a pioneer for higher education reform and innovation in China. With an outstanding faculty trained globally, SUSTech is making great strides toward its goal of building a world-class institution of higher education and cutting-edge research with broad societal impacts. The successful candidates will have great opportunities to contribute to the advancement of science in an increasingly global economy.
